Full Body Fit: Small Group Personal Training.

A fullbody strength training, cardio and flexibility routine with customization to your fitness level.

Cardio & Core: If you've always wanted a flat stomach, 6pack abs or just a stronger core, this is the class for you. It combines high-energy music with a core-sculpting routine to give you a toned midsection.

CVT: This total body class is made to get your heart rate up while strengthening your muscles in an interval timed format. Perfect for all levels!

Restorative Yin Yoga: Designed to be restorative and stress relieving. It can improve your flexibility and help you sleep better.

Strength & Tone: Become stronger, leaner, and more tone in this fun 45 minute strength training class.

Stretch & Strength: Here we will target specific areas to build strength, increase flexibility and improve your overall fitness. Special focus is given to alignment and proper form in the poses. Great for beginners!

Vinyasa Flow Yoga: Challenging yoga workout that links breath with movement to create a dynamic flow of postures. This class will move quickly and is best suited for those with a strong yoga practice.

Walk & Tone: The Better Living Walking Program is a trainer-led walk with light resistance-band exercises and stretching intervals. Get outside for some fresh air and some lunch-time activity. It's the perfect way to kick off your pre-weekend. Walks are 0.5-2 miles with 3-5 stops for light resistance exercises and stretching. All fitness
